

AIROBOT S2 ECODESIGN AND ENERGY LABELLING

03.2019

Trademark	Airobot		
Model name	Airobot-S2-HRV-R		
SEC (cold, average, warm climate)	-82,0kWh/a	-42,1kWh/a	-16,5kWh/a
Energy label (cold, average, warm climate)	A+	A+	E
Type	Bidirectional RVU		
Type of heat recovery	Recuperative		
Thermal efficiency of heat recovery	92,2%		
Maximum flow rate	462m ³ /h		
Electrical power input at maximum flow rate	314W		
Sound power level	50db(LwA)		
Reference flow rate	0,089m ³ /s		
Reference pressure difference	50Pa		
SPI	0,37W/(m ³ /h)		
Control factor	Local demand control, 0,65		
Maximum internal leakage rate	1%		
Maximum external leakage rate	2,6%		
Filter change	Device warns user in controller. Change filter regularly to maintain good performance and energy efficiency of the unit.		
Instructions	www.airobot.ee		
AEC (cold, average, warm climate)	7,8kWh/a	2,4kWh/a	1,9kWh/a
AHS (cold, average, warm climate)	92,7kWh/a	47,4kWh/a	21,4kWh/a
